BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin.	Hendrick Hudson.	Sultana.
Louisiana.	Globe.	Wisconsin.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats,* (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

For days of sailing of Steamboats from Buffalo and Chicago, see advertisement in another part of this paper.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.
THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes is better.
It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THIS Company offers unrivalled facilities for the Insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

OPPOSITION AGAINST IMPOSITION!
THE OLD STAR HORSE SHOEING SHOP.
JAMES B. HICKEY, late of the City of Cincinnati, has permanently located in Milwaukee, for the purpose of carrying on the Horse-Shoeing Business, not to be beat by any Shop in the City; for with 21 years' experience in some of the best shops in the Union, he feels confident when he asserts that he cannot be beat. Citizens of Milwaukee and vicinity, to be convinced of the truth of my assertion, and have their Horses properly attended to, so as not be maimed, interfere, &c., had better call and examine for themselves, for they will have their work done as I say, and at $1 per set for Plain Shoes; Extra Shoes $1.25; Bar Shoes $2.00 per pair; Sandals $2.50 per pair; and all other work to suit the times. Don't forget to call at the OLD STAR HORSE-SHOEING SHOP, on Huron, between Milwaukee and Jefferson streets.

THE GERMANS.—A German paper, published by Mr. Heinzen, makes the following manly appeal to its countrymen:

No man, in the present position of affairs can have stronger motives for the earnest consideration of the relations they sustain to the parties in this country, than our (German) countrymen.—Most Germans tend naturally to the democratic party. But they allow themselves to be deceived through the names of the past and the original significance which the term democracy won in the times of the federalist. That period is past; Jefferson, whom the party claims as its father, would stand appalled, could he stand once more among such degenerate children. The democratic party is entirely rotten, and has completely gone over to slaveholding and hunkerdom.

To all, on which the Germans generally lay the greatest stress,—namely, freedom of public lands, limiting the slave holding policy and a decided stand in its relations to foreign nations,—to all this the Baltimore platform offers the direct opposite. And this platform the servile hunker press calls the foundation on which we must "go on and build." Let the Russian Czar erect his rule upon the ruins of the republic, and the servile hunkers would name Cossackdom a foundation on which to "go and build." We must "go and build" in quite a different fashion.

From the struggles of the times a new and sound democratic party must be brought forth, to which men of right hearts, full of the love of liberty, men of principle and honor, may attach themselves.

THOSE AUDIENCE.—The illiterate character of many showmen, and the manner in which they handle the President's English, is frequently an item of amusement which is not down in the bills, but quite as well worth the "quarter" as any portion of the performance named in the programme. An amusing case of this sort occurred a few days ago, in the pleasant village of B——, among the Green mountains. A chap was exhibiting to admiring crowd a Diorama, consisting of "Dissolving views," and "all that sort of thing." Between the scenes the lamps were lighted, and the house "entertained" by the effects of two performers on violins, who seemed to be settling a wager as to which one should be able to saw his fiddle in two first, the boys had grown rather jolly of hearing the Diorama lecturer pronounce Napoleon, "Napoleon"—iceberg, "iceberje," and other words with like originality of orthoepy, and accordingly, when the fiddle struck up, the juveniles were more jolly still, and endeavored, with praiseworthy energy of voice, to drown out the more intolerable music of the violins.

The diorama man thought the demonstration was insulting to himself and annoying to the graver portion of the assembly—and rushing out from behind the curtain, he called out at the top of a piping voice, "*if some of those audience*"—but the remonstrance was left unfinished. The universal roar of laughter that saluted his ears was enough to appal a braver man, and he retreated among his fire-works with all possible despatch. —*Bos. Post.*

THE STATE FAIR.

The rain which commenced falling on Tuesday evening, and continued through a part of the night caused those interested in the Fair to have some misgivings as to the success of the exhibition, but the morning of Wednesday dawned bright and clear—the rain having only served to lay the dust and cool the atmosphere. We went out to the grounds early, and found that a large number of articles and animals were already present, while a constant succession of teams were pouring in, with various accessions to the show. So many were still behind, that the Executive Committee extended the time for entry until 2 o'clock P. M., and the five hours of extension were actively occupied by the clerks in recording entries in every department. Much preparation too, was still to be made in the tents appropriated to fruit, fancy articles, flowers, domestic produce and manufactures, &c., so that it was not until afternoon that we could obtain any good idea of the articles exhibited.

Before proceeding to any mention of them, we must not forget to say a word with reference to the appearance of the grounds selected. To those who are familiar with the location of the Cold Spring race-course, we need not enter upon any description, but to those who are not, we may say briefly that it is situated about 2 miles out, pleasant roads leading to it—the nearest one being the Milwaukee and Wauwatosa plank road—smooth of course, and free from dust by the rain of the night previous, and bordered on each side for much of the distance by fine forest trees, glowing in all the brilliant colors of our American Autumn. The course is enclosed with a high board fence, and the track follows nearest the fence for most of the distance around it inside. Within the track is a broad, open space, much of it level, on which are erected the various tents of the Society for the exhibition of articles, and for committees, as well as for the meeting of the members to hear the address and the reading of the premiums awarded. A pleasant grove in a part of the grounds affords refreshing shade, and in it are arranged buildings for refreshments, &c. To the south, and between the show tents and the track, are arranged a long row of pens for cattle, sheep, and swine, all occupied, and men busily employed in putting up additional ones as the stock came crowding in. Near the end of the line of pens is a collection of enclosures for poultry, of which the display is very good, although not very extensive. From near this point, leading north towards the entrance gate and ticket offices, are two rows of posts to which are fastened the numerous entries under the department of horses, in which there is a very large and creditable show. Within the lines thus drawn by the row of horses, other stock, and the portion of the track, is a broad space, in or near the centre of which are the Floral and Dairy tents, and the remainder is thickly dotted with various machinery, agricultural and mechanical implements, &c. &c.

Entering first the tent devoted to Domestic Produce, Manufactures, &c., we find our friend H. NIEDECKEN of this city, book-binder, with a large collection of specimens of his work, in various styles. An immense "progressive Ledger," for the W. M. & F. Ins. Co., two Ledgers for Marshall & Ilsley, a large Harper's Bible, together with numerous evidences of his workmanship, tell the visitor what can be done by the Exhibitor. Next, a case of ladies shoes, in various styles, is shown by A. DUNNELS & Co., of this city, handsome themselves, and arranged with taste. Next, a very modest man, Mr. D. BURR, also of Milwaukee, shows a few neat boxes, containing a new style of friction matches. He has lately purchased the right to manufacture them here, as to the manner of cutting, but has invented a composition, free from brimstone, which is unfailing in action, and without any unpleasant odor. They are as cheap as the others too, when the others are good for anything.

Proceeding, we find several tubs and jars of butter, from Messrs. EDGERTON, of Summit, S. BROWN, of Milwaukee, ELDRED, of Johnstown, and others,—samples, all of them showing that there is no reason why Wisconsin should not raise enough and to spare of butter of the first quality, if only proper care is taken in its manufacture. Some very fine cheese is shown by Mr. SMITH, of West Troy, ELDRED of Johnstown, and THURSTON, of Burlington. Descriptions of the manufacture of the latter accompany the cheese. Sundry barrels of flour were being arranged when we passed through the tent. A. FLERTZHEIM, of this city, exhibits sundry very handsome articles of furniture, among which we notice a book-case and a sewing table, the latter of superior workmanship. D. C. CADY, of the Fountain House, exhibits two of Dr. Blood's invalid chairs, admirable for the convenience of their arrangement. J. W. BROOKS, artist, shows a life size bust of Bishop Henni, of the Roman Catholic Church. It was in a poor light, but is a piece of work which does very great credit to the artist. There is also a very clever specimen of carving in wood by the same exhibitor.

C. SHEPARD, of our city, shows an assortment of tinners' tools of approved patterns. Next follows a collection of minerals sent by Messrs. BRACKEN and ALLEN of Mineral Point, Iowa Co., as contributions to the display, giving an idea in small space of the rich underground produce of the southwest. MARKS & SWAIN, of Milwaukee, show a large case of home manufactured clothing, got up in a style which cannot be surpassed anywhere, and attracting much attention. ROOD & WHITTEMORE'S case of books, showing their various styles of binding, is very handsome, and the work tasteful. J. B. DECKER, shows a quilted saddle, harness, trunk, &c., of Milwaukee workmanship. WALTER BURR, from his factory on the water-power, brings a fine lot of flannels, cloths, and some very superior yarn. We could not wish his work surpassed in quality, but should be glad to notice more contributors, as evidence that Wisconsin manufactures are working up Wisconsin wool.

Mr. Lockwood, managing owner of our gas works, exhibited numerous superb styles of gas lamps and fixtures. The Boston Belting Co., has several specimens of vulcanized rubber hose, from the agent, Wm. BROWN JR. RUSSEL'S patent chimney top and Ventilator attracts much attention. Mr. MYGATT, architect, exhibits a marble mantle of beautiful pattern, or rather an imitation of marble, quite equal to the genuine, and much less likely to be broken. SMITH & MCVICKER have several specimens of doors, sash, and blinds, of their own manufacture. THROOP & BAILEY have a case of elegant hats.

It will be noticed that most of the exhibitors mentioned are from our city. This was to be expected, but still there are many others which we shall notice, their articles not having been arranged for exhibition when we passed through the tent. This was the case with many of the vegetables, but we were enabled to ascertain the ownership of a few of the lots.

W. E. SPUER, of Wauwatosa, shows a large collection and variety of garden vegetables, grown by himself. GEO. SERCOMB, of the same town, has another collection, and a very handsome one.—The season has been a very dry one, and poorly calculated to encourage the growth of articles in this department, but the looks of these last is highly creditable to the grower.

H. E. COON of Palmyra, shows a variety of watermelons and other vegetables.

Just outside of one of the tents is a wagon, ingeniously fitted up by IRA BLOOD, of Vernon, Waukesha Co., and containing, in boxes on the rack and in other contrivances, specimens of his farm and orchard produce.

We had only time for a hasty glance at the stock on the ground, and shall devote some time to it to-day, but we may say that the collection is unexpectedly large. There are many fine cattle of the most approved breeds, and in sheep the show is large, Merinoes, Saxony's, Leicesters, Southdowns and French, occupying many of the pens, and attracting much attention from the farmers.

The six-horse team of the Messrs. Ruble of Beloit, the horses of the dimensions of moderate elephants, was much admired as it lumbered along with two threshing machines, attended by one of the Proprietors, who is no small show in the way of size himself.

P. M.

Returning to the grounds in the afternoon our attention was first attracted by the rattling sound of ATKINS Reaper, shown by S. S. WRIGHT, of Chicago, moving over the ground, the horses at a fast walk. It seemed to our eyes about the perfection of reapers: the contrivance, jointed and turning like the human arm, which draws the grain into bundles and lifts it from the table to the ground, being especially remarkable. It only needed an apparatus for binding the bundle to be complete. PITTS' Threshing Machine was also in operation at the time. This machine is well and very favorably known.

Passing again into the Floral tent, we found that very large additions had been made to its contents. Our fellow-citizen, R. N. MESSENGER, had brought into place a large and valuable collection of green-house plants, as well as a choice, though not large selection of cut flowers. A very beautiful floral design by PETER CANNON, was also in place. T. H. HISLOP, also of our city, made a show of roses, phloxes, pansies, &c. The *amount* of the flowers exhibited was hardly sufficient to give a name to the tent. We expect to see more to-day.

GOFF, confectioner, has a grand architectural affair, of candy, which is an evidence of what *he* can do. He has also some very pretty pieces of wax work. In the department of needle work, we noticed a large display. Among the other articles—some more properly belonging in the other tent—were a patchwork quilt, and a woolen carpet by Mrs. G. VLIET, of this city, an assortment of needlework of various kinds, contributed by the ladies of Fort Atkinson, Jefferson Co., and some of them of very superior quality,—and an embroidered rug, knit shawl, and worked ottoman cover by Miss ELY of this city, the latter articles admirably executed. There are many other articles in this department, of which we shall speak hereafter. Under the head of Paintings, we remarked several of our friend DORWARD'S finished productions, both in oils and crayons. ALFRED PAYNE, of Racine also exhibit a number of portraits. Mr. P. is an old acquaintance of ours, and an artist of superior merit, as his works testify. He thought, at one time, of settling in our city, but was frightened away by the poor encouragement held out to him. So he has a little farm near Racine, where he has started his own vine and fig tree, and sits under their increasing shade, painting portraits when he is in the humor.—There are other paintings of which we shall take further notice.

H. MIDDLETON, of this city, furnishes a case of umbrellas and parasols, of home manufactured—Mr D. G. POWER'S immense map of Wisconsin, of which much has been said and much favorably, hangs upon the wall of the tent. Under the head of Printing, H. A. STARR exhibits a specimen business Card of Starr's Job Office, very tasteful in its workmanship. The specimen book of the same office, also shown, contains many evidences of taste and skill. The *Morning News*, Messrs. SHAW & HYER, exhibit a large framed business card, admirably executed. RUFUS KING & Co., of the *Sentinel*, have various specimens of large and small posters, steamboat bills, business cards, and their specimen job book of ordinary work.

We note also in this tent, the superb display of jewelry and silver ware by A. B VAN COTT of this city; accompanying his articles is his well known Musical Clock, of which a description in the space left us is impossible, but which is alone worth a journey to the Fair Grounds.

We shall continue our notes to-morrow.

Gen. Pierce against the Right of Petition.

From 1835 to 1839, large numbers of petitions were sent to Congress by citizens of the Free States, for the abolition of Slavery and the Slave trade in the District of Columbia.

Gen. Pierce, in the House of Representatives,

Feb. 2, 1835,	Voted to lay petitions on the table.
Dec. 15, 1835,	Voted do.
Dec. 12, 1835,	Voted do.
" "	Voted to lay such petitions on the table without reading.
Dec. 23, 1836,	Voted for Patton's Gag.
Feb. 8, 1835,	Voted for Pinckney's Gag Committee.
May 13, 1836,	Voted for Pinckney's Gag.
Dec. 20, 1836,	Voted to lay petitions on the table.
Jan. 9, 1837,	Voted do.
Jan. 18, "	Voted for Howe's Gag.

Gen. Pierce, in United States Senate.

Dec. 18, 1837,	Voted for Calhoun's Resolution to suppress free discussion.
Jan. 9, 1838,	Voted against printing Resolutions of Vermont Legislature against Texas annexation and Slavery in the District of Columbia.
Feb. 6, 1838,	Voted against allowing Senator Morris, of Ohio, to speak on the Slave Question.

This was the course of FRANKLIN PIERCE, on the right of Petition, while a member of Congress.

Can the FREE WEST be coaxed, or cheated into voting *for an enemy* of the sacred Right of Petition?

THE REVILERS OF WINFIELD SCOTT.

The PIERCE press, rendered desperate by the "signs of the times," is becoming reckless in its daily abuse of WINFIELD SCOTT. The services which this illustrious soldier has rendered to his country ought to have shielded him effectually against the shafts of calumny. But there seems to be no sentiment of gratitude in these ultra partizan prints. We cite two recent samples of Loco Foco detraction from the Detroit *Free Press* and Cleveland *Plaindealer*:

The great Oliver Twist of the Whig party, who has already received in pay and emoluments, exclusive of "stealings, pickings," etc., some *three hundred thousand dollars!* of the people's money, within the last forty years—much of this time, too, the country being in a state of profound peace, when Gen. Scott's real services could not have been worth a tithe of what he was receiving—is now stumping the Union, "asking for more," in terms of mingled blarney and entreaty, addressed to the masses.—*Detroit Free Press.*

While he was receiving his full pay as Major General of the army, he even desired to thrust his hands still deeper into the treasury. And to show his desire for gain, and his entire ignorance of civil matters, we need but to allude to his petition which he made to Congress in June, 1836, for a pension. The pension laws were made for the purpose of affording relief and comfort to those officers and soldiers of the army and navy who during service had received wounds or disabilities of such a character as to render them unable to gain a subsistence by the usual avocations of life.—*Cleveland Plaindealer.*

Let every true-hearted American read the above and unite in administering a fitting rebuke to these unscrupulous revilers of WINFIELD SCOTT.

CIRCULATE THE DOCUMENTS!

We invite our country friends, visiting the State Fair, to call in at the *Sentinel* Office and get a few Scott Documents to circulate among their neighbours in the interior. We have English, German, Norwegian and French, for sale, and also for distribution *gratis*.

WHIG SENATORIAL NOMINATION.

Messrs. Editors:

The Whigs of this District, pursuant to notice met at Hartland on the 5th and nominated Dr. SPERRY of Delafield candidate for Senator at the ensuing election. JAMES CLARK, Ch'n.

JAMES M. LEWIS, Sec'y.

NOW AND THEN.—The N. Y. *Herald*, which is distinguished above its fellows of the PIERCE press by the reckless malignity with which it assails and traduces Gen. SCOTT, pursued the same ribald course towards Gen. TAYLOR in 1848.—*Then*, it spoke of "Old Zach" in the most contemptuous strains, and thus insisted upon Gen. SCOTT'S better claim to the Whig nomination for the Presidency and his superior fitness for that office:

"Where was Scott? Wasn't he the persecuted man? and the biggest fighter, too? Didn't he conquer at Vera Cruz, Cerro Gordo, at Chapultepec, and at Mexico? Who DOUBTS, *whoever doubted that* HE WAS THE GREATEST GENERAL OF THE TWO? And HE is a Whig, too; a straight out Whig; a Bank man; a Tariff man, a Distribution man—a Whig all over. And this is not all: he writes his own letters, and with a tolerable regard for the King's English. He does not cut up such capers with old father Murphy as to say (as Taylor does in his letter to Ingersoll) that he greatly doubts his want of the necessary qualifications for the Presidency."

☞ We copy from yesterday's Chicago *Tribune* a brief account of the "single Wicket" match in that city on Tuesday last. It will be seen that Johnson won easy:

Single Cricket Match.

A challenge having been given by Mr. Geo. Toombs, of this city, who is not a member of the Chicago Cricket Club, to play a single game of wicket, the challenge was accepted, and below we give the result.

Toombs - - 1st inning, 0 runs.
" wide, 1 " b. o. by Johnson.
Johnson - 1st inning, 10 " run out by Toombs.
Toombs - - 2d " 0 " b. o. by Johnson.
Johnson victorious by 9 runs

This match was a very exciting one, owing to large bets pending on the result, and the known character of the players as good cricketers.

☞ The *Handels-Zeitung*, an ably edited commercial paper, published in the German language in this City, is urging the election of Gen. Scott, not as a partisan measure, but as the means of assuring to the country such a commercial policy as will give activity to commerce, secure a home market and living prices for farmers, and the full development of the mining and manufacturing resources of the nation. The *Handels-Zeitung* holds that only a protective tariff can effect this auspicious result, and we rejoice to see a paper whose interests are neutral, thus independently and patriotically raise its voice in behalf of its convictions on this vital question.—*N. Y. Tribune.*

Our German Farmers are almost all for a Protective Tariff and begin to realize the fact that the only hope of getting one is to vote for SCOTT.

"BOLTING" IN DANE COUNTY.—We copy from the last Madison *Democrat* the following proceedings of "a German meeting," held Oct. 1st at the house of Mr. SPRECHER, at which Mr. N. JOHNSON presided and Mr. F. MASSING acted as Secretary:

On motion, a committee of five, Carl Habich, Diego Mohr, M. Friend, John Eeberhard, F. Massing, was appointed to draft resolutions expressing the sentiments of the meeting; which resolutions were severally read and unanimously adopted.

Committee Reports:

That in our opinion, the democratic party *only wants our votes*, without being willing to do anything for our interests.

That as citizens, we believe to have a right to see a man in one county office, who speaks our own language, as we believe this to be a great convenience to a large part of our population, and for the benefit of the county in general.

That we do not agree with the nominations of the democratic party for the forthcoming county election, and therefore solemnly pledge ourselves *not to vote for them.*

In Wisconsin, it seems that the Independent judicial ticket is elected over the regular party nominees.—*Alb Atlas.*

Paragraphs similar to the above are going the rounds of the Eastern papers. They were started by the Whig journals of this State, on the receipt of the first election returns from Milwaukee, Waukesha and Dane Counties.—*Wisconsin.*

What "Whig journals of this State" stated these "paragraphs"? We have seen none in our exchanges.

DANE COUNTY WHIG NOMINATIONS.—The Whigs of Dane County have nominated the following strong ticket:

Senator, H. H. Giles; Sheriff, P. W. Matts; Treasurer, Wm. D. Bird; Clk. of Board, Chas. Cornelluson; Clerk Court, Frank S. Lawrence; District Attorney, J. R. Baltzel; Surveyor, G. W. Graves; Coroner, J. S. Clifford.

The *Democrat* says that "the names upon this ticket are those of worthy and respectable men." We trust that the Whigs of Old Dane will see that they are all elected.

☞ The *News* makes mention of an accident at a recent Whig mass meeting and intimates that it is dangerous for people to attend such gatherings. Well, these crowds are rather alarming for timid folks, and we advise such, by all means, to patronize the PIERCE meetings. They will find lots of elbow-room, and run no risk of accidents there

Appeal to the American Heart.

Reader, we beg your attention to the following simple narrative of facts. Examine it carefully, in view of your sacred responsibility to your country at the present time. Read the recital to your neighbor. Put the question to his conscience, if he can withhold his vote from WINFIELD SCOTT to bestow it on FRANKLIN PIERCE? Patriotism, gratitude, every just and manly instinct of the heart forbids it. WINFIELD SCOTT MUST BE CHOSEN PRESIDENT OF THE UNITED STATES. Leaders of parties and factions may stab his reputation and strive to strike him down, as they have done and are doing now. THE PEOPLE WILL PROTECT AND SUSTAIN HIM.—*Galena Gazette.*

From the Lowell Journal of Sept 14th.

THE EDITOR WAS AN OFFICER IN THE ARMY, AND MARCHED TO MEXICO WITH GEN'L SCOTT.

Gen. Scott's Triumphant Entry into the City of Mexico as a Conqueror--His Departure from it as a Prisoner.

Five years ago this morning Gen. Scott, at the head of his brilliant staff, made his triumphant entry into the ancient Capital of the Aztecs. He had already ordered a portion of the troops to the grand Plaza, and as, at a little after nine o'clock, he rode up from the western garita among them, in full uniform and mounted on his splendid charger, the spectacle was one of deep and thrilling interest to every American. The stars and stripes floated to the breeze from the National Palace. The old Cathedral loomed magnificently up on one side of the square, and from the balconies of the old Cortez edifices on the other, the Spanish and Mexican girls were seen to wave their white kerchiefs as emblems of peace, and silent petitioners for favor from the advancing Conqueror. Beneath the pillars of the bazaar, and under the shadow of the Cathedral, might be seen grim Mexicans scowling from their serapes and beneath their broad sombreros—wonderstruck at the idea of their beautiful Capital of two hundred and fifty thousand souls, having thus fallen into the hands of less than eighteen thousand American troops. As the General rode through the grand Plaza—amid the Yankee blue jackets drawn up in perfect order on either side, and the heavy cannon, whose thunders but the day before were heard with such fearful effect at Chepultepec, ranged here and there—all discipline for the moment seemed to be forgotten by the gallant soldiers. They loved their chief almost to adoration. They had been with him in his perilous march from Vera Cruz, and had followed him into the blaze of every victorious battle-field—and now on this morning to see him triumphantly entering the enemy's Capital, their hearts filled with joy and exultation. Throwing off all restraint, as the old hero came forward on his prancing steed, the hearty huzzas and cheers rent the air long and loud. As the General took off his cap, in acknowledgment of the cordial greeting from his victorious men, one of the bands struck up our national air, and again, and louder than before, the huzzas broke from the lips of the exultant troops.

Gen. Scott dismounting at the gate of the National Palace, entered the grand hall or saloon—from which the edicts of Viceroys and Governors and Presidents, for centuries had been issued—and immediately wrote an order, announcing his occupancy of the Mexican Capital. In that announcement—a copy of which is before us, he says and beautifully says—"Under the favor of God, the valor of the army, after many glorious victories, has hoisted the colors of our country in the Capital of Mexico, and on the palace of its government. The honor of the army, and the honor of our country call for the best behavior on the part of all. The valiant must, to obtain the approbation of God and country, be sober, orderly and MERCIFUL. His noble brethren in arms will not be deaf to this appeal from their commander and friend." On the afternoon of the same day, Gen. Scott again addressed the troops in these words:—"The General-in-Chief calls upon his brethren in arms to return, both in public and private worship, thanks and gratitude to God for signal triumphs which they have recently achieved for their country. Beginning with the 19th of August and ending the 14th inst., this army has gallantly fought its way through the fields and forts of Contreras, San Antonio, Churubusco, Molino del Rey, Chapultepec and the gates of San Cosme and Tacubaya, into the Capital of Mexico. When the very limited numbers who have performed such brilliant deeds shall have become known, the world will be astonished and our countrymen filled with joy and admiration."

In such fitting language did the victorious conqueror address the men under his command, upon his triumphant entry into the Mexican capital.—How well his words were heeded, and with what devotion and patriotism he proceeded at once to the work of securing the great object of his mission—an honorable peace—is known to the nation and to the world. There never was an army whose bearing and conduct in a conquered country, reflected such honor upon itself or upon its own country, as the American army in Mexico. Upon its entrance into the capital, the republic had no government, and it therefore became the first duty of General Scott to give the people an administration, which should protect them in their rights of property, and in their religious observances. Here it was that the victorious chief displayed those high civil and administrative talents, which won the admiration of the whole army, and proved his unquestionable claim to the possession of the higher attributes of the statesman, as of the soldier. We shall not dwell farther upon the administration of affairs, during General Scott's occupancy of Mexico, than to say that it was brilliant, and in all respects successful. Through his devotion, perseverance and incessant labors, peace also was finally secured.

We have briefly sketched the Conqueror's triumphant entrance into the National Palace on the morning of September 14th.—But now the scene changes—and the picture is reversed. In precisely six months, to a day, from the date of his own announcement of the occupancy of the capital, Gen. Scott stood in the National Palace, a PRISONER—and the chains forged by AMERICAN HANDS AT HOME. He was summoned before a Court of Inquiry in the Palace—and as he stood up before his judges, his inferiors, his tall and commanding form, the observed of all observers—pleading his rights, modestly alluding to his own services, and portraying the wrongs he had received, one could not but say, "Alas, there is reason to complain of the ingratitude of Republics!" On the morning of the 14th of March following his entrance into the capital, he stood before that Court in the Palace, and addressed his accusers. His words as he stood up boldly and respectfully before them in the great saloon we have referred to, were as follows—"Here in the capital of Mexico, conquered by the American arms under my command, I find myself a prisoner at large—the chief criminal before this court. Stricken down from a high command, from a high military position—the highest, perhaps, ever occupied by any individual since the days of the Father of his country—the immortal Washington—I feel deeply wounded; my military pride has been cast down into the dust, not by the public enemy, but by THE LONG ARM OF POWER from home. All that could be done in that quarter to degrade and humble, has been done. But sustained by the Almighty's arm, feeling strong in conscious rectitude, strong in mind and body, I BID DEFIANCE TO MY ACCUSERS!" There was not an American in Mexico who, as he listened to these words and saw the old Hero, like Columbus in chains, dishonored by his own country, did not feel mortified and ashamed that he should have received such treatment. The whole matter of the court, as every one knows, proved to be a magnificent farce, and was finally dropped—as if the only object of its instigators had been to degrade Scott upon the very theatre of his glorious renown.

And now the scene changes again. On the morning of the 22nd of April, it became known to some few that Gen. Scott was about to leave the Capital of Mexico for his home. In the evening of that day a large assemblage of the friends of the gallant hero collected in front of his quarters, in the city of Mexico, and bade him farewell by a grand serenade. Several very appropriate and touching airs were played, and at the close of the very spirit stirring sounds of "Hail to the Chief," the commanding form of the Gen. was seen to come to the front of the balcony from whence he bowed his thanks, silently it is true, but the feelings of many a bounding and warm heart responded, and three loud and hearty cheers were given to General Scott, as he disappeared from the window. The next morning, there was an affecting scene in front of his quarters, as he came out, to start upon his journey to Vera Cruz. The Rifle Guard was drawn up to receive him, and as he passed and they presented arms to their beloved commander for the last time, they shed tears like children, and so affected was the old hero that he could scarce get into his carriage.—Officers and men crowded around him and as he was too much overcome to receive them all, those who had not the happiness of shaking him by the hand, were glad to get a sight of him as he departed. Those who had not even a chance of seeing him, mounted their horses and followed him on the road, determined that he who had led them from victory to victory, should not leave the valley of his great operations, without one adieu. Around his carriage—for he was too much too much exhausted by his late heavy labors, and the emotions of parting with his brothers in arms, to ride on horseback—as it proceeded along the causeway to El Penon, the officers crowded, and as fast as one could give the "God bless you, General," and fall back, his place was supplied by another, and so the adieus continued for a long way on the road.

And thus did Winfield Scott leave Mexico—going, virtually, a prisoner from the Capitol which but a few months before he had entered as a triumphant conqueror! Will not the people bear this fact in mind, now that they have an opportunity of bestowing their loftiest honors upon one who has reflected such lofty honor and renown upon their country?

MORE "WORDS OF WARNING."—The Morning *News* promises a reply to "the *See Bote's* Manifesto," after "the present week's pressure is over" and it has had leisure to give the article the attention which it demands. "Take your time, Miss Lucy."

City Matters.

COMMON COUNCIL.—The Council held a special session yesterday morning. A variety of business was transacted, and the vacancy in the clerkship, caused by the death of ALFRED JOHNSON, was filled by the election of Alderman S. C. WEST. The ballot stood for West 7, Whitehead 3, Scattering 3. We congratulate the Common Council upon the selection. Mr. WEST is an excellent business man, has made a very efficient Alderman, and will discharge the duties of Clerk to the Board as well as could be wished.

Mr. WEST'S election as clerk rendering vacant the Presidency of the Board, a ballot for that office was had and resulted thus:—

Ald. Prentiss,	1st Ward,	7
Ald. Huebschmann,	2nd "	3
Ald. Martin,	5th "	3

Ald. WM. A. PRENTISS was accordingly elected President of the Board. He is well qualified for the post.

The Theatre.

Miss DEAN having recovered from her indisposition will appear, this evening, in the character of Parthenia, in the favorite play of "Ingomar."—We think this one of the very happiest efforts of Miss DEAN'S dramatic talent and advise all who have not seen her in this part to improve the opportunity to-night. The comic farce of "the Secret," with *Stone* in his amusing character of "Thomas," will conclude the entertainment.

Musical Society Concert.

The Musical Society of our city give a Concert *this* eve'ng at their Hall, Dickerman's Block. Their programme, which will be found in our advertising columns, is rich in musical gems. We can confidently assure visitors from abroad that the Concert will be well worth hearing. Our own citizens need no such assurance to induce them to attend. Among the novelties will be a Piano Forte Solo by Mr. TENZLER, a new comer and a superior article.

"FUNNY DOGS."—Mr. Nutter, agent of *the* Barnum, is exhibiting in Juneau's Block, two curious Sea-Dogs, which are thus described in the Chicago *Journal*:

"Mr. Nutter, the agent of Mr. Barnum, who visited Ceylon for the purpose of procuring animals for his Mammoth Museum, has arrived in town with several rare and interesting species, including a Sea Dog, with her young—a pair of Ourang Outangs almost human, and a hairless mare—a beautiful animal with skin as soft and glossy as velvet.

He also exhibits a lump of gold from California, weighing 658 ounces—which as merchandize, would be equal to $11,536.

The curious should look in at Mr. Nutter's exhibition, and gratify their curiosity.

ACCOMMODATIONS FOR VISITORS.—The cars last evening brought in from the West some 700 passengers, and lots of articles for the State Fair.—Our Hotels are all full, and private hospitality must take care of those who are not otherwise provided for. We trust that our citizens will see that no visitor lacks for bed or bread. Let each house-holder who has room to spare, look up his guests *to-day*.

BENEFIT OF THE NORMAL INSTITUTE.—Our citizens and visitors at the Fair are reminded of the attractive exhibition and entertainment for the benefit of the Normal Institute, announced in our advertising columns. The gallery of Paintings is to open *to-day*. The evening entertainment will be given at the Hall of the Institute, to-morrow evening.

STATE FAIR BALL.—A grand Ball is to be given in the large tent of the Society, on Friday evening. Ample arrangements have been made to ensure the success of the festival. We hope the ladies will all make it a point to attend.

DROWNED.—A hand on the *Golden Gate*, named JOHN LONG, was drowned at Racine night before last. His body was recovered, and brought to this city on the same boat yesterday afternoon. He had a family here.

☞ Our Carrier for the Fifth Ward is sick, and our subscribers in that quarter are requested to overlook any irregularities in the delivery of their papers for a day or two.

☞ The *Arctic* from Chicago last evening, brought a very large load of passengers and articles of various sorts for exhibition at the State Fair.

GARDINER'S HALL.—The Panorama of Eden and the Melodeon Troupe offer their combined attractions at Gardiner's Hall again *this* evening.

☞ Mr. Sub-Editor of the *Wisconsin* wishes us to believe that instead of being malicious, it was only grossly stupid in calling us "Romanists." It adds in ignorant simplicity its preference of the names "Papist" and "Romanist" to the more decent titles "Roman Catholic," or "Catholic." We accept the ecclesiastical brutality of this conscientious bigot, but beg that hereafter his Democratic sheet may never again be found prating of its liberality and friendship for Catholics.—*From the 'See-Bote,' Oct. 5th.*

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

DAILY SENTINEL.

BY TELEGRAPH.

Private Despatch to the Sentinel.

BY O'REILLY'S LINE.

Later from Havana.

New York, Oct. 5.

We learn by the *Empire City* from Havana, that the passengers were permitted to go ashore at Havana without molestation. The excitement was still very great and was increasing by every effort of the local government to put it down.

Dissatisfaction is said everywhere to exist. The most high-handed outrages had been committed on the American vessels. One of them, the bark *Cornelia*, on leaving for New York, was ordered to anchor and was detained one day. Two of her passengers were also seized and imprisoned. The letter bags of the vessel were then robbed and rifled of their contents. The barque *Elizabeth Jay*, Capt. Brooks, from Philadelphia, was subjected to some stringent and unusual searching.—Extra officers were placed on board and her staterooms locked up by the police. The barque *Childe* arrived on the 1st inst., and was likewise very closely searched, and all loose papers seized and the vessel finally given in charge of the Pilot of Havana. These outrages have been committed for no satisfactory cause, but solely to gratify their spite.

The government was daily losing many supporters. M. Guserao, Marquis of Duchess, and his brother were both arrested and imprisoned, and for no particular reason. The British man of war Rosamond, which left Havana on the 28th ult., refused to hoist her colors—the Captain being so utterly disgusted at the conduct of the authorities.

Don Paccicla, publisher of the Revolutionary paper, "The Voice of the People," was garrotted on the 29th ult. He met his fate with composure. He leaves large and valuable estates. Included in letters seized on board the Cornelia, were several addressed to citizens of New York. The writers of these letters have been cited to appear before the Mayor that they might be opened in their presence, and failing to present themselves, will be dealt with according to law.

New York, Oct. 5.

Official information has been received from Nicaragua of the rejection of the Webster and Crampton treaties.

Ex-Gov. Whitcomb, of Indiana, U. S. Senator in place of Mr. Hannegan, died in this city last evening, after a lingering illness.

Mr. George Anderson, a California gold dust broker, doing business in Wall street, was robbed of $11,000 in gold coin by some one who entered his premises with false keys.

The brig *Oscrola* sailed yesterday for Liberia, with forty colored emigrants.

New Orleans, Oct. 4.

The steamer *Black Warrior* from N. York via Havana, arrived at Mobile yesterday morning. The *Picayune* received her files of papers and correspondence to the 1st inst. The disaffection on the Island of Cuba was growing stronger every day. An arrest of suspected persons continued to be made daily. The police force had been increased and the domiciliary visits were of frequent occurrence.

Wheat and Barley dull and lower—sales White Ohio 65 cts; Barley 60; Oats 36. M.

Further by the Atlantic.

New York, Oct. 4th.

The steamer Atlantic arrived about half-past 7 o'clock last night, with dates from London and Liverpool to the 22d. In grain there are no new features. Wheat remains steady at the rates per Canada. Flour and corn firm at same quotations. Favorite brands of flour are scarce and commanded extreme rates, whilst inferior was neglected.

For cargoes of Indian Corn to arrive, a slight advance has been paid.

Trade at Manchester quiet and steady.

Political news of slight importance.

The remains of Wellington were still at Walmer Castle. It was uncertain when the funeral would take place, but it would be a public one. The Duke left a will dated as far back as 1818.

FRANCE.—The President of France continued to be received every where in his journey with much enthusiasm, and it was believed that the proclamation of the Empire was not far distant.

BELGIUM.—A change has occurred in the Belgian Cabinet. Mr. Orban, Minister of Finance, and Mr. Leidig had accepted the office provisionally.

SPAIN.—Advices from Cuba in Spain represent the Island quiet. The Spanish Government have ordered British vessels to be received in the ports of Spain and treated as Spanish vessels.

New York, Oct. 4.

Charles W. Farnham, Captain, and W. Howlett, Engineer of the Reindeer, appeared in the U. S. District Court to-day, and pleaded not guilty to the indictment of manslaughter.

There was some considerable excitement in Wall street this P. M., it being known that Brown, Brothers & Co. had been defrauded in $230,000 by their cashier, Augustus Bowen, in connection with B. A. Comstock, a note broker. They had managed during two years to abstract that sum. Both parties are now in prison, and an examination will take place to-morrow. The father of Bowen is a partner in the house, and is completely overwhelmed at his son's conduct.

Hon. James Whitcomb, U. S. Senator from Indiana, is lying dangerously ill in this city.

Isaac Newton, the wealthy steamboat owner is much better.

Judge Conklin has gone to Washington and leaves for Mexico in a ship of war.

J. A. McCuen, charged with being concerned in an enlistment for an invasion of Cuba, has been arrested at Columbus and held to bail in the sum of $10,000.

Louisville, Oct. 4

Hon E. A. Hannegan, of Indiana, has been discharged from the murder of his brother-in-law while under the influence of liquor.

Philadelphia, Oct. 4.

About 11 o'clock this morning an old man named Ephraim Geer, made an attempt to shoot J. P. Fairland, in rear of the Court house. He fired three barrels of a revolver, but fortunately, without effect. The three barrels not discharged upon examination, were found to be highly loaded. Geer was committed to prison.

The steamship Pioneer, mentioned yesterday as being lost, is insured here for $100,000. Her machinery it is tho't will be saved. She was owned by Spofford, Tileston & Co., was of 2000 tons burden. The Pioneer was built for the Liverpool trade, and made one trip to that port.

An important seizure of jewelry valued at $5,000 was made on Saturday, in the eastern part of the city—part of it is thought to have been stolen in Buffalo in Aug. last.

The Rt. Rev. Bishop Delancy, of Western N. Y., was among the passengers on the Atlantic.—The Bishop is in the enjoyment of good health.

IMPORTANT RUMOR.—As we go to Press there is a rumor in circulation in this city, that Gov. Hunt has removed two of the State Prison Inspectors, Angel and Clark, upon the testimony which was forwarded to him, a few weeks since by our County Judge. The rumor is well authenticated and we have no doubt of its correctness. Those who heard the testimony against them have been all along prepared for the announcement of their removal.

P. S.—Since the above was written we have received information in regard to the rumor, which positively settles the question that Angel and Clark have not only been removed, but their successors appointed. Epenetus Crosby, the Whig candidate for Inspector, and Benjamin Squires, of St. Lawrence are their successors.—*Aub. Daily Adv. of Wednesday.*

FATAL ACCIDENT. H. S. Blossom was kicked by a horse, at the 4th tollgate, on the Milwaukee and Janesville Plank Road, last Tuesday, at 11 P. M. from the effects of which he died on Thursday at 2 A. M. A Mr. Marshall, of Dane Co., paid him the legal toll, 16 cents, for the distance he was to go, but Mr. Blossom demanded 20 cents, and took hold of the reins to stop Mr. M.'s horses, when one of them, being skittish, kicked him in the stomach. His body has been sent East for burial. —*Free Democrat.*

WHAT CONSTITUTES A GENTLEMAN?

THE reader's definition would probably be, true kindness, consideration for the feelings of others, and honesty and liberality of sentiment. These qualities do, in reality, constitute the gentleman; and in a society organized upon the basis of moral worth, instead of wealth, would pass current as a sufficient passport to the highest circles. But unfortunately for many of Nature's noblest works—gods—gentlemen,—something more than moral worth and genuine politeness are requisite to obtain the appellation of a gentleman. In most cases a good, if not fashionably clothed exterior, is the only *wand* which affords ingress to the Society even of those who profess to be guided by other standards than appearances.

The Hair, one of the first objects that attracts our notice, is by many considered the most important. A person may be clothed in the richest fabrics manufactured after the most approved taste, his hat may be irreproachable in style, his linen may be pure and unsullied, his boots may be well-fitting, gentlemanly, French calf or the bright, glistening patent-leather, with its untarnished, mirror-like surface, still something is wanting. Although we lay no claim to the character of a philosopher or metaphysician, we think a little light may be shed on this vexed want:—*The Head is Bald!* Still, do not despair; Johnson's Chemical Hair Invigorator, whose perfume is of the most rare and delicious fragrance, the best and only reliable antidote for baldness known, is still to be obtained. If any roots are left it will produce hair. It gives tone and vigor to the functions of the scalp, and speedily insures to the user a beautiful crop of hair.

HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS EXCELS ALL OTHERS now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught; a small boy can attend the horse, and the running back of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work; seven or eight bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 400 lbs., measuring two feet square and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged instantly, and the follower gradually recedes as the Hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The travel for a horse, in running up a bale, is fifty feet, while in a screw press, the travel is one mile and a half, in running the screw up and down. We have one new Press now in operation at Waukesha Wis., and two others in process of construction.

So great a failure of the hay crop as has occurred in all of the Eastern and Atlantic States, the present season, cannot fail to ensure a most profitable business to any persons in Wisconsin or Illinois, who may take hold of this business with energy. The hay may be shipped during the present fall, and three months of the spring navigation, before another hay crop is raised.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway, Hay and Cotton Press, is a machine combining great power, convenience of operation, and constructed on true philosophical principles, and is a great desideratum to the river counties, and all places not contiguous to market, and also to cotton and hop growers; and the Committee think they do not exaggerate when they say it is, in their opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $5."

The Press, with the right to use it, can be purchased at less than half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

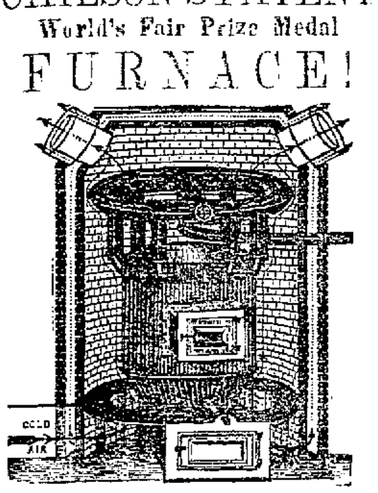
CHILSON'S PATENT

World's Fair Prize Medal

FURNACE!



WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented is declared by high and reliable authority, to be the

BEST FURNACE IN THE WORLD.

Not only is this Furnace and our system of ventilation proved and declared to be the best mode of Warming and Ventilating DWELLINGS, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES, &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in this country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best.—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common trail hot air furnaces seven years since, under the settled conviction that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air and the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus for thoroughly warming and ventilating buildings, has been entirely successful.—They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—flues easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars. Sizes for all classes of buildings. Also, 4 sizes of new and superior PORTABLE FURNACES. Dr. Clark's Improved Boston School Stove.

Registers of all descriptions; Hot-air Grates, Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and smokey chimneys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of those beautiful

of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.

SAUGATUCK IRON WORKS,

WESTPORT, CONN.

OFFICE NO. 5, NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for Railroad companies, to-wit:—Car wheels and axles, boxes and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets, frogs, head and heel blocks, chairs, and all castings connected with Railroad superstructure.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels. We were then informed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and advised us to attempt its improvement.—With every desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the iron of which they were made was sufficiently strong and properly chilled. Since then, we have left no means unemployed that we could control, to procure a new and stronger combination of iron than heretofore used, and feel confident that we have succeeded, with which we are now turning out double and single plate and spoke wheels, fully guaranteed as regards strength and depth of chill. Within sixty days we will be able to supply limited orders with "Whistler's Express" and "Whistler Single Plate" wheels. From the material used in and the expense of fitting up, these patterns will cost something more than ordinary wheels, but it is confidently predicted by those whose opinions are most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whistler, Jr. Esq., (whose experience in all matters connected with railroads is sufficiently known) and intended to obviate the influence of contraction and expansion to an extent that will render them perfectly safe in all weather, at the highest rate of speed.

AXLES.—We will use none but the best figured, which are superior to any other.

SWITCH STANDS, LEVERS AND TARGETS.—We have adopted a stand that recommends itself for simplicity of construction, and the best guarded of any we know, invented by Van Blarcomb, Superintendent of Machine Shops of the Housatonic & Naugatuck Railroads, but will make of any pattern desired.

SCREW CUTTERS.—The invention of Mr. Van Blarcomb, a useful, cheap and successful machine.

BOXES AND PEDESTALS, of any size or pattern to order.

DRILLING MACHINES, of a very simple and very substantial character.

WHEEL PRESSES.—Made to order.

LOCOMOTIVE DRIVERS AND CYLINDERS.—Made to order.

FROGS, CHAIRS, HEAD & HEEL BLOCKS, And all work connected with superstructure, made by contract.

Predicating our success on the facilities we possess of procuring the latest improvements in machinery, and the uniform excellence of our work in material and finish, we solicit orders.

H. H. RAYMOND'S

Spherical Disinfecting Fluid,

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate

selected from a number, can be seen at the store of the agents:

ASTOR HOUSE, New-York, 27th April, 1850.

HOE'S CAST STEEL CIRCULAR AND LONG SAWS.

THE SUBSCRIBERS MANUFACTURE FROM THE best cast steel, Circular Saws, from two inches to five feet in diameter. These saws are carefully hardened and tempered, and are ground and finished by machinery designed expressly for that purpose, and are therefore much superior in truth and uniformity of surface to those ground in the usual manner. They require less set, less power to drive them, and are not so liable to become heated and produce a saving in timber.

They also manufacture, Cast Steel MILL, PITT and CROSS-CUT SAWS and BILLET WEBS, of superior quality, all of which they have for sale at their warerooms, Nos 29 and 31 Gold street, or they may be obtained of the principal hardware merchants in the United States.

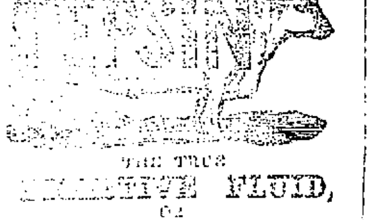
PATENT MEDICINES.

[illegible] according to Act of Congress, in the year [illegible] by J. S. Houghton, M. D., in the clerk's office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

[illegible] Dr. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page [illegible], says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

[illegible] Carpenter's standard work on Physiology, which is in the library of every physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the Calf or Ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach, and deficient secretion of Gastric Juice.

All standard works on Chemistry, Materia Medica, and Physiology, describe Artificial Digestion, describe the [illegible] and properties of Pepsin, and state many interesting facts in regard to it.

The fact, that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price one Dollar per bottle.

☞ OBSERVE THIS.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

GENTLEMEN'S FURNISHING GOODS.

They are confident in view of their very superior and unsurpassed facilities for the purchase of goods in the Eastern markets from cash auctions, importers and manufacturers, in all cases from first hands, one of the firm residing and superintending the business of their concern in Philadelphia, that they are not only able, and do buy their goods from 20 to 25 per cent cheaper than most houses in the city who buy on credit, and of jobbers, but they are able and are determined to sell that much lower. They deem it superfluous to attempt, as it is impossible to enumerate the articles that comprise their stock, which in extent is unrivalled by any similar establishment west of the Atlantic cities.

To their friends and customers, and those who know them, it is needless to say anything, but to strangers who are in want of articles comprising their stock, they will say, call on us and let us show you the great inducements we are able to offer; we will give you polite and respectful attention, with better bargains than you are able to get elsewhere. HAWKINS'
STAVE DRESSING
MACHINE.
PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey
BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves
PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is them ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines, and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

NO. 1.
R. R. R.
RADWAY'S READY RELIEF,

Is the first and only remedy ever recorded in the Medical History of the World that has stopped the most violent pains in a few seconds.

IT WILL STOP
THE MOST SEVERE PAINS
IN A FEW MINUTES, AND CURE THE MOST OBSTINATE AND TORMENTING RHEUMATIC, NEURALGIC AND NERVOUS COMPLAINTS
IN A FEW HOURS,
INTERNAL AND EXTERNAL.
IT WILL STOP
THE MOST EXCRUCIATING PAINS,
IN FROM THREE TO FIVE MINUTES!
AND HAS CURED

Rheumatism	In Four Hours.
Neuralgia	In One Hour.
Croup	In Ten Minutes.
Diarrhœa	In Fifteen Minutes.
Toothache	In One Second.
Spasm	In Five Minutes.
Cramps	In Five Minutes.
Sick Head Ache	In Fifteen Minutes
Chill Fever	In Fifteen Minutes.
Chilblains	In Five Minutes.
Sore Throat	In Four Hours
Influenza	In One Hour.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pain, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belledonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges.

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were misound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones. Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAYS MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive.—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

READ AND BE CONVINCED.
[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25

"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

"The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says.—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.

A Word of Caution to the Public!

Dealers in Pain Killer are cautioned against buying or selling a spurious article of Pain Killer, manufactured by White & Co., of Buffalo, which is a worthless imitation and the pamphlets a "BASE FORGERY" which will appear by comparing them with the Genuine. "The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." Many unprincipled persons, to deceive the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds such as Pain Destroyer, Pain Killing Compound, a real Pain Killer, &c. &c. all of which have been got up on the reputation of Perry Davis' Pain Killer.
